

# Sprint 1 Report

**Project:** SLUG GRUB

**Team:** Jason (P.O.), Riley, Jacky, Karthik, Jerry(SM), Erik

**Date:** 10/22/25

## Actions to Stop Doing:

- N/A

## Actions to Start Doing:

- Commenting on Github Issues
  - Tracking issues in really important and ensuring that 2 people are not working on the same item
- Pushing to developmental branches not main so we can keep the integrity of the project until the branches have been tested

## Actions to Keep Doing:

- Keep researching selenium/beautifulsoup to see how scraping can be more efficient

## Work Completed/Not Completed:

- Completed: Scraping the menu website
- Completed: Dump the menu data on a json
- Completed: Hosting the menu data for front end to fetch with refreshing data
- Completed: Figma Design
- Completed: Basic website setup with basic JSON menu data
- Completed: Github codebase setup
- Not Completed: Adding the hours/times (**completed in sprint 2**)

## Work Completion Rate:

- User Story Completion rate:  $(1/2) = 50\%$

- Total Estimated Work Hours Completed: 10 hours
- Days Used for Sprint 1:
  - $10 \text{ hours} / 14 \text{ days} = \sim 43 \text{ mins per day}$

### Story Points Completed and Maximum Story Points
