Sprint 2 Report

Project: SLUG GRUB
Team: Jason (P.O.), Riley, Jacky, Karthik (S.M), Jerry, Erik
Date: 11/02/25

Actions to Stop Doing:
- Stop having meetings too late in the day
  - We have been starting to lean toward having the meetings earlier in the day

Actions to Start Doing:
- Use project page on github to organize and track issues
  - Originally we didn't have a proper way to track tasks/issue but now we do

Actions to Keep Doing:
- Tracking and updating issues on github project board to
  - This helps make sure the team knows what is being worked on / done when allocating tasks
- Pushing to development branches
  - Using main branch only as final iteration to prevent conflicts
- Keep updating user interface
  - User interface will always have small improvements that can be made to make information easier to read / organized

Work Completed/Not Completed:

- Completed: scrape sub categories from menus
- Completed: scrape allergen information from menus
- Completed: scrape cafe and market data
- Completed: add new data into nested json file
- Completed: display allergen and category data on website
- Completed: display food information + filters on left hand side
- Completed: connect to json to display updating food
- Completed: coding times on the website
- Not completed: N/A

Work Completion Rate:

- User Story Completion rate: (3/3) 100%
- Total Estimated Work Hours Completed: 12.5 hours
- Days Used for Sprint 2: 2 weeks
  - 12.5 hours / 14 days = ~ 53.4 minutes per day

Sprint 2 Final Burnup Chart:
